

# Hawkesbury Afloat at BROOKLYN MARINA

9985772

## Waverunners (Jetskis) 'Itchy' & 'Scratchy'

Location:  
Brooklyn Marina  
45 Brooklyn Rd.  
BROOKLYN. 2083  
Mbl: 0408 102614

### STAFF - checklist before starting:

- Sight contract - "Skipper" & correct Jetski
- Sight first aid kit, air horn
- Check fuel, cap is firmly closed on tank and breather is open, check gauge level
- Check life jacket is on correctly
- Check RED cord lanyard is on wrist
- Sight tow rope, shackles & fire extinguisher
- Check oil level in oil tank
- Check with Skipper condition of Jetski/hull

### In Gear:

- **FORWARD** = squeeze right trigger
- **NEUTRAL** = squeeze & release left trigger once
- **REVERSE** – with neutral engaged squeeze left trigger and hold

**OIL:** The motor is **4 stroke** and oil is **NOT** premixed. Oil filler tank is under seat. Staff will keep this topped up before each hire.

### Tips:

- DO NOT drive boat onto beaches
- Ensure you have your mobile phone with you and it's charged – this number is on our contract
- Keep PFD and Safety lanyard on your body
- Do not release throttle when trying to steer
- Take early action & avoid collision
- Scan constantly
- Operate defensively
- Do not apply throttle when anyone is at rear of the PWC
- Avoid aggressive maneuvers
- Know how to Right if upturned
- **Fuel is only 95 high octane**
- Constantly check fuel gauge
- Ensure you understand ALL the information in the Contract
- Be wary of the weather
- Stay min. 60m from swimmers
- Stay min. 30m from other vessels

### Steering:

- To steer left - move handlebars left
- To steer right - move handlebars right
- Steering can only happen when moving

### SAFETY EQUIPMENT

- PFD life jacket (fitted)
- 1 x first aid kit
- 1 x fire extinguisher
- 1 x Tow rope shackles
- Emergency red stop cord
- Spare Emergency lanyard

**FUEL will last about 3 hours**

### How to start motor:

- Red Safety Lanyard must be attached to left wrist and to Emergency Shut off Switch at handlebars

### Ensure no person is in water near water jet

- Push the green start switch

### How to stop motor:

- Push the stop button

### Emergency motor stop:

- Pull red cord from base
